Sub: PRICE-Investigation Estimate- Instructions regarding the documents to be submitted along with the estimates in PRICE ,for issuance of Financial and Administrative Sanction-reg

Considering the need for proper site investigation for ensuring structural stability of water retaining structures such as ,RCB, VCB, Wiers, Check Dams etc, proper site selection and soil exploration plays a pivotal role. Hence, the below mentioned guidelines are strongly recommended to field officers during the submission of estimates through PRICE software for obtaining Financial/Administrative sanction from this office.

Following documents may be uploaded in PRICE along with the Estimate while placing request to this office for Financial Sanction/Administrative Sanction .

- Recommendation letter from the Concerned Chief Engineer. In the case of subordinate offices of IDR B, recommendation letter from the concerned Superintending Engineer.
- Public Utility Certificate
- Land availability Certificate(need to mention whether clearance from any another Department/agency is required)
- Necessity of the Scheme
- Beneficiaries of the Scheme
- Distance of the proposed structure from any other structure in the river course both upstream and down stream
- Details of river course, whether straight or bend and if so the distance of the bend from the proposed structure
- Location of the structure(Latitude and Longitude)and distance from any permanent structure(reference Point).

P.T.O

- Width of the river
- Type and Preliminary drawing of the proposed structure with location and spacing of proposed bore holes
- The newly constructed structure should not have any adverse impact on the hydrological efficacy of the existing and ongoing irrigation projects.

The field officers shall ensure that sufficient Bank height is available at the proposed location of the structure . The field officers shall ascertain that above particulars are complied while submitting requests for obtaining requisite sanction from the undersigned.
