CALL FOR NOMINATIONS

Dear Sir/Madam,

National Council for Cement Building Materials (NCB), Centre for Continuing Education Services (CCE) is organizing **3-days** Training Programme on “Repair and Rehabilitation of Concrete Structures” at our Hyderabad Unit on **29-31 July 2026**. The course is designed for Civil engineers, site engineers/supervisors of Construction Industry and Concrete Technologists.

The repair and rehabilitation of concrete structures in the construction industry has become significant in view of premature distress of structures owing to man made errors and also due to different factors such as shrinkage, expansion etc.,. These can be prevented to a large extent at the time of construction by paying proper attention to selection of materials, specifications for mortar and concrete, good construction practices etc.,. The repairs of structures involve detailed study of source of distress like cracks, corrosion etc., selection and application of suitable techniques and repair materials. Choosing appropriate techniques and materials requires an evaluation of cause/effect relationships, constructability, repair and rehabilitation environment and cost benefits with respect to a particular project. In this scenario, there is a need to deliberate upon emerging trends in repair technology, new repair materials and modern repair equipment in order to raise the level of awareness among engineers and consumers.

The programme will bring together the professionals of various organizations, experienced technologists from Construction Industry besides NCB experts are being invited to take part in technical deliberations to share their experience and exchange of ideas. A brief note setting out the course contents, venue, fee etc is enclosed for your reference.

We hope you will find the programme beneficial and nominate as many participants as possible from your esteemed organization. Please send us the nominations to cceh@ncbindia.com , 2015cceh@gmail.com well in advance, preferably before **25 July 2026**, as it will help us to plan and conduct the programme in the best possible manner.

For any queries, you may contact

Mr K R Pundareeka Nath (+91 9718821179) /Ms G Ragini (7995835399).

Thanking you and assuring you of our best services.

Yours faithfully

for National Council for Cement and Building Materials

Dr.B.Pandu Ranga Rao
Joint Director & Unit In-Charge
